

# FRY FIGHTER EXTINGUISHER

## F6G

Foam extinguisher

Cooking oil fires, because of their high auto-ignition temperatures are difficult to extinguish. Conventional extinguishers are not effective for cooking oil fires, as they do not cool sufficiently or may even cause flash back, so putting the operator at risk.

The 6-litre Fry Fighter extinguisher has been developed to deal specifically with fires resulting from cooking oils and fats. It has the capability to fight fires in deep fat fryers of up to 75 litres capacity. It contains a specially formulated wet chemical which, when applied to the burning liquid, cools and emulsifies the oil, extinguishing the flame, sealing the surface and preventing re-ignition.

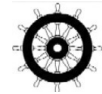

## SPECIFICATIONS

Product group	Fire extinguisher
Product family	Foam extinguisher
Material	Steel
Colour	Red RAL 3000
Extinguishing agent	Wet Chemical Foam
Temperature range	-10/60 °C
Dimensions (h x w)	532 x 215 mm
Diameter	171 mm
Contents (weight)	0 kg
Contents (volume)	6 l
Weight filled	12.9 kg
Discharge time	4 sec.
Article Number	420159
Firerating class A	13 A
Firerating class B	113 B
Firerating class F	75 F
