

NOR HOSE COUPLINGS

LOCK 3

NOR fittings are designed for pairing of pipes, hoses, spray tips etc.. for use in fire fighting and flushing with water. Used by Norwegian fire departments, municipalities, water and sewage facilities etc. couplings, which are of claw principle, be connected each other with two equal parts, ie not male or female, but "unisex".

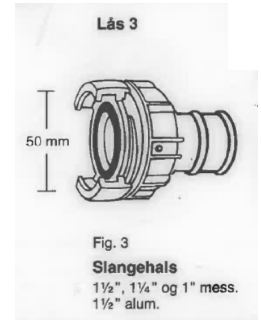

The new NOR Coupling is able to withstand pressure up to 60 Bar.

NOR Couplings come in 3 different lock sizes - lock 1, lock 2 and Lock 3 - from the largest to the smallest. On the opposite side of the "claw" is the interface to the hose or tubes, tube socket in various dimensions (from 1 - 3") or pipe threads, interior / exterior (BSP) (from 1-3 "). Lock 2 is used mostly in the marine / offshore sector.
